

Company Profile

Signify (formerly known as Philips Lighting) is the world leader in connected LED lighting products, systems and services. Through our innovations, we unlock the extraordinary potential of light for brighter lives and a better world.

We serve professional and consumer markets, transforming urban spaces, communities, work places, stadiums, buildings, shopping malls and homes. Our products, systems and services help our customers to maximize energy use, drive efficiencies and deliver new experiences and services.

Signify employs 32,000 people in 70 countries and has manufacturing plants in all major regions of the world. Our products, systems and services are sold in 180 countries. Our business is divided into four business groups: LED, Lamps, Professional and Home. By leveraging the Internet of Things, we are helping to make buildings, cities and homes smarter.

Signify is pioneering innovation and the evolution of the lighting industry. We combine our deep experience in lighting with technologies such as secure cloud storage, data analytics and software applications. As the lighting company for the IoT, we are committed to extending our leadership in connected lighting.
